

Start at the Dot — Privacy Policy

Last updated: August 28th, 2026

Start at the Dot does not collect any data.

The app has no network access. It does not connect to the internet, and no information ever leaves your device.

What the app stores

The app saves your settings — writing size, tolerance, letter order, sound, appearance — and the stars earned for each letter. This is kept only on your device, in the operating system's standard local storage. It is never transmitted anywhere, and it is removed when you delete the app.

No accounts

There is no sign-in, no user account, and no profile.

No third parties

The app contains no advertising, no analytics, no tracking, and no third-party software development kits of any kind.

Children's privacy

Start at the Dot is designed for young children. It collects no personal information from anyone, including children under 13. Because nothing is collected, nothing is stored, shared, sold, or disclosed.

Changes to this policy

If this policy changes, the updated version will be posted on this page with a new date.
